
Cosmetology 10

Miss.Taryn Banach
February 2022 - June 2022
Semester 2

Cosmetology Studies focuses on personal and professional grooming, body care, and enhancement practices, and provides students opportunities to explore and prepare for cosmetology-related career options.

This course will introduce the students to personal grooming practices and safety, as well as basic hair styling tools and techniques used to create a variety of hair styles with thermal styling, braiding designs, shampoos, roller sets and comb outs. They will also learn the applications of basic facial treatment techniques and perform basic skin care practices while gaining a better understanding of professional skin care and make-up products.

Marking Scheme:

The marking scheme for cosmetology will focus on both theoretical and practical components. Students will need to successfully complete all components of a module before moving on to another module.

The following modules will be offered this semester for Cosmetology 10 students:

COS 1010: PERSONAL & PROFESSIONAL PRACTICES

Prerequisite: None

1 credit

- Students develop increased appreciation for the significance of personal grooming in various life situations, as well as the knowledge and skills required to maintain a personal health and safety plan

COS 1020: LONG HAIR DESIGN I

Prerequisite: COS1010: Personal & Professional Practices

1 credit

- Students handle hair confidently, brush, comb and part hair correctly and create ropes, knots and two- or three-strand braids.

COS 2010: LONG HAIR DESIGN 2

Prerequisite: COS1020: Long Hair Design I

1 credit

- Students use photos or other images as guides to recreate a variety of hair designs using long hair techniques.

EST 1020: SKIN CARE PRACTICES

Prerequisite: COS1010: Personal & Professional Practices

1 credit

- Students identify the basic structures and functions of the skin. Students analyze skin and perform basic skin care practices, including cleansing, toning, nourishing and protecting.

Each cosmetology module will involve a written component (module booklets, assignments, etc.), labs, and assessments. The following general timeline will be followed as closely as possible to achieve course goals.

COS 1010 February

COS 2010 March/April

COS 1020 May/June

GENERAL EXPECTATIONS

- Students in Cosmetology are expected to be in class on time. Students should be seated and have all relevant materials when the bell goes. Being late will require a late slip from the office and chronic lateness is not acceptable.
- Attendance is permitted for all mandatory PULSE classes. Given that this course is heavily practical, attendance is critical to successful completion of the modules.
- It is the responsibility of the student to let the teacher know if they have upcoming absences. It is the students responsibility to stay caught up on assignments. Help is available at the request of the student.
- Cell phones should not be a distraction to the learning environment. If students' cell phones are preventing work completion, they will be asked to either leave them in their locker or put them on the teachers desk during the class.
- All students are expected to participate in a positive manner and respect the rights and opinions of others.
